

May Day Renewable Generation & Climate Protection Workshop

Please join us on May Day 2008 for a free workshop to learn about up-to-date opportunities available for renewable generation and climate protection. This workshop will provide information on:

- PG&E's newly available Small Renewable Generator Power Purchase Agreement (to allow for selling excess power back to the grid)
- California Solar Initiative (CSI) updates and opportunities
- California's future cap-and-trade program
- PG&E's ClimateSmart program

Attendees will have the opportunity to ask questions of all presenters. Solar vendors will be present to answer installation questions. **Workshop and reception are free**, but donations to Solar Sebastopol will be appreciated.

What: Workshop to explore currently available opportunities for renewable generation and climate protection, followed by wine reception hosted by the Green Energy Loan Program.

Where: Sebastopol Community Center, 390 Morris Street, Sebastopol
Directions: [Sebastopol Community Center](#)

When: May 1, 2008 – 1:00 to 5:00 PM

How: Please RSVP to [Martha Baeli](#) with your name, organization, phone number, and number of expected attendees.
